Project Title: Pigeon Photography

Wikipedia page: https://en.wikipedia.org/wiki/Pigeon_photography

I think this website should be built as multiple pages rather than one continuous page. I would like to keep the aesthetics of pigeon photography which seems to be fast and grainy. As the title would imply, there would be heavy use of images.

- Home Page/Introduction
 - o What is pigeon photography?
- Origins/background
- Julius Neubronner/technology
- Uses
 - o World War I
 - o World War II
 - o Post-World War II
